

FOR EVERYONE

You have an idea. *That's enough.*

You don't need permission. You don't need to be ready. You don't need years of experience. You need an idea and the willingness to take one step. MEAT Empire gives you everything else.

EMPIRE, IN ONE BREATH

Bring a half-formed idea. We help you shape a first step and test it with real people, low stakes. If it works, it grows into something real — with MEAT's infrastructure behind you, not alone.

LET'S MEAT →

EARLY STAGE

This is just starting.

MEAT Empire doesn't have a roster of case studies yet — because it's brand new. What it has is a founder who built the first thing anyway, and an open door for whoever's next.

BE ONE OF THE FIRST →

THE PROCESS

How it works.

No pitch deck required. Just an idea and a willingness to test it.

01

Bring your idea

Half-formed is fine. You don't need a business plan — you need something you keep thinking about.

02

Shape the first step

We help you turn the idea into one small, testable move instead of a giant leap.

03

Test it with real people

Low stakes, real feedback — before you've committed money to something that might not work.

04

Build from there

If it resonates, it grows into something real inside the MEAT Universe — connected, not alone.

BUILT FOR

Who it's for.

If you've got an idea and nowhere to bring it, this is for you.

C

Chefs

TEST A CONCEPT

Before you sign a lease you can't get out of, test the concept on real people first.

O

Operators

FIND YOUR ROOM

Access to venues, chefs, and a network built for launching things, not just running them.

F

Foodies

SHAPE WHAT'S NEXT

Be in the room before an idea becomes a restaurant everyone's talking about.

B

Brand Builders

BUILD WITH US

If your idea isn't food at all, MEAT's infrastructure and audience still might be the right place to build it.

FOR INVESTORS

The build layer.

MEAT Empire is the creation layer of the MEAT Universe — the infrastructure that lets chefs, operators, foodies, and builders test and launch ideas with real support behind them, instead of alone and unfunded.

It's early. There's no roster of funded creators yet, no revenue to report. What exists is the model: give people a lower-risk way to test real ideas with real people, and let the ones that work grow into something bigger — with MEAT Hospitality Group already proving the core loop works in its own dinners.

Every part of MEAT is built to strengthen the others. Empire doesn't need to be the highest-margin piece of the business to be a critical one — it's how the ecosystem keeps generating new things worth being part of.

THE SEQUENCE

Dinners prove the format repeats. Real partnerships make MEAT Points worth something real. The app gets built, simply at first. Empire opens up from there — growing on proven ground, not a bigger pitch.

THE DIFFERENTIATOR

Most rewards ecosystems show everyone the same offers and hope something sticks. MEAT learns the person first, then personalizes what they see, who they meet, and which rewards actually mean something to them. Relevance before inventory — the right person, the right opportunity, one user at a time.

MEAT GROWS AS YOU GROW

Most apps recommend the same thing forever. MEAT keeps asking where you are, and where you'd like to be — then updates as the answers change. MEAT doesn't define creators by who they were when they signed up. It evolves with who they're becoming.

There for the milestones, and everything in between.

IF BUILDING GETS OFF TRACK

Yesterday's step doesn't just disappear. Keep it today, move it, break it smaller, mark it complete, or drop it. If you keep moving the same thing, MEAT can ask: "You've moved this three times. Want me to make it easier?" Accountability without shaming.

A LITTLE MUDGE

A Mudge is a gentle, opt-in nudge about today's or tomorrow's MEATs — sent only if you've said you want it, even when your phone's off or on silent. A little Mudge. A real move.

Not daily minutes spent in MEAT. Daily progress made by MEAT.

Instagram says look at everybody else. TikTok says keep watching. MEAT says: "**Hey, what are you building today?**" And then actually helps.

MEAT helps you remember your work, organize your work, and actually build it.

EVEN IF YOU'VE BEEN GONE A WHILE

WELCOME BACK

Hey Jared.

Picking Up Where You Left Off

Mockup shown for illustration — the actual app is still being built.

"My goal isn't to build something that only works with me in the room. It's to build MEAT so useful that one day, it doesn't need me there to explain why it matters." — Holden Krivelin

We didn't invent building things, or the courage it takes to start. That's always been possible. We just built something new that's been right in front of us the whole time.

TRY IT RIGHT NOW

What's your first step as a creator?

Empire isn't built yet — but this part of it already works.

MEAT REWARDS

10 points

Right Now · 0–20 pts

A coffee, or a protein bar to fuel the next work session — first points redeemable same day.

This Month · 150–400 pts 

Post a real picture of yourself, or pick one of our MEAT Avatars instead — your call.

Ship something worth sharing? Post it — other creators can like it, comment, and share it, so you're never building alone.

Mockup shown for illustration — the actual app is still being built.

A meatie is a great accountability partner for a lot of things. For substance use, mental health, or recovery, MEAT always points toward real, trained support first — not a stranger from an app. See our full Trust & Safety commitments on meathospitalitygroup.com →

One app for everything. Events. Partner redemptions across the city. Yesterday's goals and today's. We're not five apps pretending to be one — we're the one that was actually supposed to exist.

When we grow, you grow. When you grow, we grow.

The goal isn't to replace every specialized tool. It's to become the coordination layer between what you're building and your actual life — knowing why it matters to you, not just what's on your to-do list. MEAT starts with "help me live." Empire extends that into "help me create."

In this life, we either do it together, or we do it alone. It's just a lot more fun when we're together.

Make somebody's Tuesday meaningfully better than it would have been without MEAT.

INSIDE THE APP

What is *Meaties Place*?

One destination where every creator shows up — matched by shared interest, shared goals, and what you're actually building that day. It's the first tab in the app, right after Today.

From there: team up on something shared, or just show support — like, comment, and celebrate what someone else just shipped. Nobody connects automatically. The other person always decides — MEATUp, or MEATUp later.

Meates are interest-based communities inside MEAT. Each Meate brings together creators with overlapping ideas, industries, or goals. Connect with people already inside one, discover new creators, join relevant MEATUps, and share progress with a group — not just one creator at a time. Meates make a large network feel small, relevant, and personal.

Meaties Place rewards progress, not popularity. No follower counts, no status competition — someone's first idea matters just as much as someone's tenth launch.

We're all meeting in the middle.

INSIDE THE APP

What is a *Mudge*?

Mudge: a personalized MEAT prompt that helps you remember, act, connect, or take your next First Step.

Mudge — a MEAT nudge. A personalized prompt to help you take your next First Step, remember something important, discover something relevant, or reconnect with what you're building.

Phone off, on silent, out living your life — a Mudge only shows up if you've said you want it, and it only ever asks about your actual MEATs, today's or tomorrow's. A little Mudge. A real move.

Nothing left unfinished. Nothing left behind.

INSIDE THE APP

What are *Meatgestians*?

What's next, the MEAT way.

Meatgestians are personalized suggestions for what's next — built from your goals, what you're building, what you're already into, and what you just shipped. Not generic recommendations. Yours. The fourth home in the app, right alongside Today, Meaties Place, and MEAT Rewards.

You're caught up. Want to keep moving? Entirely up to you — click in or toggle on, never pushed on you.

THE FULL DAILY LOOP

Mudge gets you started → First Steps move the day → rollover keeps you accountable → Meaties and Meates inspire and connect → Meatgestians answers "what's next?"

INSIDE THE APP

What is *MEAT Count*?

A visible record of forward movement.

More than a step counter — every meaningful thing you did today, across everything you're building. Steps toward a launch, a bill paid, money moved toward a runway goal. Then MEAT shows both sides: what you did today, and where it's taking you — MEAT Count Today: 7, Runway Goal: 25% complete. A small win counts the same whether it's yours or someone else's bigger one. MEAT never ranks you against anyone else, only against your own progress.

Every step counts. Every payment counts. Every action counts. Because progress should lead somewhere. That somewhere is MEAT.

Making Ends MEAT

MEAT Count counts the steps. Making Ends MEAT shows where the financial ones are taking you.

A Companion For Your Work

MEAT checks in with you, helps you reflect on your day, keeps unfinished things from disappearing, and helps you think about what comes next.

Tell MEAT how you're feeling, what matters tomorrow, and where you want to move forward.

MEAT doesn't need to run your life. It helps you stay connected to it.

BUILDING IN HEALTH & WELLNESS?

MEAT Empire isn't just for hospitality ideas. If your concept lives in fitness, wellness, or self-care, the same infrastructure applies — bring the idea, test the first step, build from there.

MEAT exists to make people's lives better.

Don't watch us dream. Watch us execute.

TALK TO US →

THE FIRST STORY

One creator who was afraid, and built anyway

H

Holden

FOUNDER · MEAT EMPIRE

Before: "I have an idea for a marketplace where chefs, operators, and foodies can come and collab on the next big idea in hospitality. I'm calling it MEAT."

After: Built the platform. Hosted the first dinner. Kept going.

This section grows as real creators build real things. Yours could be next.

YOUR MOVE

Build With MEAT, or *build your own concept.*

Whatever you're building — a restaurant, a brand, a first idea you haven't said out loud yet — MEAT Empire is the infrastructure to build it with, not alone.

BUILD WITH MEAT →

BUILD YOUR OWN CONCEPT →

THE WORLD IS BUILT ON MEAT.

People. Purpose. Action. Connection.

We will be the MEAT map for everyday lives.

"MEAT helps people know what to do now, what to do next, and who I can do it with."

MEAT should be easier to use than the life problem it's helping you solve. If opening the app ever feels like work, that's on us to fix.

You grow. We grow. We grow
together.

MEAT Empire is infrastructure for every creator. Whether you're scared or confident.
Experienced or brand new.

Your ideas remain yours. Your economics are transparent. Your growth compounds for
everyone.

Let's MEAT.

THE MEAT UNIVERSE

MEAT Hospitality Group → MEAT Universe → MEAT Hospitality Group Store →

MEAT Empire is the build layer. MEAT Universe is where people connect. MEAT Hospitality
Group is proof it works.

Built by creators, for creators.
